MANY LIVES ARE LOST

Explosion In Coal Mines In Tennessee Causes a Great Sacrifice.

NOT ONE UNFORTUNATE ESCAPES.

An Official Statement Given Out by Mine Superintendent Fixes the Number of Dead at One Hundred and Fifty.

Coal Creek, Tenn., May 20.—An explosion in the Fraterville and Thistle coal mines here caused a shocking sacrifice of human lives. The mines took fire after the explosion.

George N. Camp, superintendent of Thistle mine, gave out an official statement estimating the number killed in both mines at 150. None has been rescued.

Two rescuing parties were started into the Thistle and Fraterville mine entrances as soon as possible after the explosion. The Thistle party was unable to make any headway whatever, as the gas stifled the men almost as soon as they entered the shaft. The Fraterville party went as far as the "Parting of the Ways" into the mine, where a heavy fall of slate was encountered. This cut off any further progress into the mine until the slate obstacle was removed. The intense heat indicates that the mine is on fire.

At 1:30 p.m. one man was taken from the mouth of the Fraterville mine. He was an unrecognizable mass of flesh.

Fifty Passengers Rescued.

New York, May 20.—The ferryboat Mauch Chunk of the Central Railroad of New Jersey collided with a railroad float off the Battery. The Mauch Chunk had a number of passengers aboard, and her captain did not back out from the float for fear that the water would rush in at the hole made by the collision. The float and ferryboat drifted down the bay together, and as there was a heavy fog, were soon lost to sight from shore. All the passengers were taken off the Mauch Chunk by the fasten, and were landed in Jersey City. No one was hurt. The boat which collided with the Mauch Chunk belonged to the Baltimore and Ohio railroad. It was being towed by the tug Ell Coni. There were about 50 passengers on the ferryboat, and for a time there was much excitement.

Dye Houses Closed.

Paterson, N. J., May 20.—Every dye house in this city was closed as a result of the order made last week for a general strike. Two policemen were stationed at each dye house as a precautionary measure, but there was no disorder. The strikers have planned to send some of them to the Pennsylvania towns, where silk skein dyeing is done, and Petersburg, Va., with a view of bringing into the union the men working in the dye houses in both places, and inducing them to add to their strength of the strike by quitting their tubs in sympathy.

Mr. Dolliver's Speech.

Washington, May 20.—Mr. Dolliver said, in the senate, the attacks on the army were dictated by malice, which also was directed against the government. He paid a tribute to the late President McKinley, saying there was no note of greed in his policy. McKinley had put the seal of his approval upon holding the Philippines in trust for their inhabitants. He said congress was more likely to cede back the valley of the Mississippi than to leave the Philippines to anarchy.

Neumann Dismissed.

Washington, May 20.—Captain Bertram S. Neumann of the marine corps has been dismissed from the naval service as a result of his trial by court-martial at Pensacola, Fla. Captain Neumann was tried on four charges: Scandalous conduct tending to the destruction of good morals, disobeying the lawful order of his superior officer, falsehood, conduct to the prejudice of good order and military discipline.

Will Appoint Cardinals.

Rome, May 20.—As it will be impossible for the pope to personally undertake the strain of the work in connection with the Philippines mission, he will appoint a committee of three cardinals to confer with the American delegates; and it is thought likely that Cardinals Martinielli, Satolli and Vlveo Tuto, the last named a Spaniard, will constitute this committee. Monsignor Gasparri will act as secretary.

Ferryboat in Collision.

New York, May 20.—The Staten Island ferryboat Middletown was in collision with the steam yacht Aileen. The ferryboat's cabin was badly damaged, and it is reported one man was killed. The Aileen belongs to Richard Stevens of the New York Yacht club.

CLASH IN A HOTEL.
Exciting Scene Over United States Fugitives in Montreal.

Montreal, May 20.—There has been an exciting scene in the corridor of the fifth floor of the Windsor hotel, when, for the first time in Canada within the recollection of lawyers, a hotel was turned into a court of justice on Sunday. This event was followed by a determined effort on the part of friends of John F. Gaynor and Benjamin D. Green to gain forcible entrance to their rooms. Ten of the stoutest officers of the Montreal police force stood guard over the prisoners, and when Attorney Taschereau, the prisoner's counsel, tried to get through their line he met anything but polite treatment.

The clash came about over a rumor that the prisoners' friends had a plan to rescue them. It was necessary to get the prisoners out of the hotel, and so Judge Lafontaine was sent for, and told that an important point was to be argued. Followed by a dozen lawyers, the judge went to the corridor, and within 50 feet of the rooms occupied by Gaynor and Greene he opened court.

Lawyers for the defense declared they knew of a plot on the part of the United States authorities to kidnap the men at night and hustle them out of the country in the same way they had been brought from Quebec to Montreal. Mr. Taschereau demanded that his clients be at once returned to the county jail, where they could be safely locked up. Crown Prosecutor Lemieux had no objection, but Senator Durand, acting for the United States, denounced the statement of a plot as a falsehood.

It was then declared, amid great excitement, that the reverse was the case and the excuse of placing the prisoners in jail probably meant that, as soon as the men were out of the door of the hotel, hired men, hiding nearby, would spring upon the party and drive them to a safe place.

Judge Lafontaine said he would go in and see the prisoners, but Inspector MacMahon shoved him back, and, backed up by the other nine men, shouted defiance to judge or lawyer who dared to try to get into the rooms.

Some of the lawyers decided to see the attorney general, who is in the city, and point out to him that no one had right to maintain a private prison.

Judge Lafontaine granted an indefinite remand in the cases of Gaynor and Green, and ordered them incarcerated in the Montreal jail in the meantime.

To Advocate Arbitration.

New York, May 20.—The eighth Lake Mohonk conference on international arbitration will be held at Mohonk Lake, N. Y., May 28, 29 and 30. John W. Foster will preside at the meeting, which will be attended by over 200 men and women of all parties, faiths and professions. The first Mohonk arbitration conference was called in 1895. In organization and methods it resembles the Mohonk Indian conference, which has met since 1883. Each year's conference has a separate existence. It is not a peace conference. As a body it does not maintain that war has been or is always wrong. The conference holds that, as a business proposition, it is time to substitute law for war between nations as between men. Wars already in progress at the time of the meeting are not discussed. The mission of the conference is to do its share toward preventing future wars through the negotiation of obligatory treaties before the passions of men have become aroused. This year it will deal especially with the commercial aspects of war, and will endeavor to enlist the business men of the country in some special effort in behalf of arbitration.

Mr. Underwood's Point.

Washington, May 20.—The house resumed consideration of the naval ap-

propriation bill. When the house ad-

joined on Saturday point of order was pending offered by Mr. Under-

wood (Ala.), in relation to the appoint-

ment of 500 additional cadets at the

naval academy, Annapolis, under rules

and regulations authorized by the sec-

retary of the navy, the appointments

to be distributed among each senator,

member and delegate and 24 cadets to

be appointed at large. Mr. Underwood

contended that the clause was a

wholly different proposition from the

authorization of a battleship. He said

it would be a very dangerous innovation

if the chair overruled the prin-

cipal of order.

Washington, May 20.—When the

senate met the chair laid before it the

letter of the French government, trans-

mitted through Ambassador Cambon

to the secretary of state, expressing

the thanks of that government for the

sympathy evinced by the president

and the congress and the nation of the

United States toward the sufferers

from the catastrophe in Martinique.

The communication was referred to

the committee on foreign relations.

GOLIAD IS WIPE OUT

Deadly Work of the Tornado In a Historic Little Town In Texas.

WRECK AND RUIN AT OTHER POINTS.

Injured Are Being Cared For by Physicians and Nurses Who Were Taken to the Place on Special Trains.

Dallas, May 20.—The death dealing storm which swept over the state of Texas snuffed out the lives of at least 90 persons, injured over 100, and left the historic little town of Goliad a gaping wreck.

Within five minutes the terrible work of the tornado was done, and those who were lucky enough to escape with their lives ran to the work of rescue.

The survivors at Goliad are too dazed to estimate the property loss, but a strip of the town two blocks wide and one mile long was swept. The damage is heavy. Dead and dying animals are mixed with the debris, which marks the path of the storm. The injured are being cared for by physicians and nurses, who arrived on special trains. No names of the dead or injured has been received here in addition to those already reported. The storm which swept Goliad destroyed much property in other portions of the state, but so far as known no lives were lost. Shortly after noon the storm struck San Antonio and demolished property to the extent of possibly \$75,000 and injured several persons, none seriously.

Austin also suffered considerable property loss. At Mineola a wind-storm, followed by rain, uprooted hundreds of shade trees and blew several houses from their foundations. A Mrs. Willingham was injured.

Heavy rains fell throughout the western portion of the state and will help crops materially. The Panhandle especially was drenched.

To Raise Funds.

Mexico City, May 20.—The finance department has sent to congress an important bill authorizing the executive to issue the fifth and last series of the interior 5 per cent bonds, amounting to \$20,000,000, the proceeds to be applied to the payment of subsidies to four railroad companies. Also the executive is empowered to issue bonds, payable in Mexican or foreign coin, as may prove most advantageous, to provide money for the improvement of the National Tohuantopec railway for port works at the gulf and Pacific terminals of the road; to meet expenses of the new port works at Manzanillo; public buildings at Vera Cruz; the construction of a new legislative palace and the expenses connected with the waterworks of this city and sanitation works now approaching completion here.

A Kodak Trust.

Rochester, N. Y., May 20.—Details of the plan for the consolidation of the Kodak enterprises have just been made public. The aggregate cash value of all these enterprises is estimated at \$20,000,000, and capital stock of the consolidated corporation is \$35,000,000, the new company which has been incorporated in New Jersey will acquire properties all over the world. The business of the various companies to be taken over consists principally of the manufacture and sale of photographic cameras, dry plates, films, papers and other materials, with the principal factories at Rochester and Jamestown, N. Y., and Toronto, Canada.

Bodies Identified.

Fort de France, Martinique Island, May 19.—The first official estimate of the results of the explosion of Mt. Pelee have been announced. This gives 28,000 as the number of people buried in the ruins of St. Pierre. Six thousand persons were rescued by steamships or fled to places of safety. Three thousand probably were drowned. This is the most complete estimate made so far. The bodies of Thomas T. Prentiss, American consul, and James Japp, British consul, have been identified, and will be brought here for shipment. Both bodies are bruised by the fall of lava and stones almost beyond recognition.

An Illegal Trial.

Washington, May 20.—In an opinion delivered by Justice Peckham, the United States supreme court decided the case of Captain Peter C. Deming in that officer's favor. The case involved the right of a court-martial composed entirely of officers of the regular army to pass upon a case involving the rights of a volunteer officer. The effect of the opinion is that such a trial is illegal.

INDICTMENTS FOUND
Against Officials and Citizens In the City of Toledo.

Toledo, May 20.—The grand jury impaneled several weeks ago, and charged by Judge Kinkade to investigate the rumors of bribery and official dereliction, made a partial report. Indictments were found against the following persons:

Moses R. Bradley, city solicitor, three counts for bribery; Edgar H. Tokert, claim agent of the Toledo Railways and Light company, bribery; Moses R. Bradley and Edgar H. Eckert, obtaining money under false pretenses; Edgar H. Eckert and George Stetter, bribery; James Sheehan, contractor on city work, bribery; Fred J. Young, assistant street commissioner, bribery; Thomas J. Purtl, member board of revision, bribery; Ira C. Moore, secretary board of revision, bribery; Michael Howard, bribery.

Minnesota Town Flooded.

Lacrosse, Wis., May 20.—Advices received from Preston, Minn., a few miles from here on the Dubuque division of the Milwaukee road, state that the water spout struck near Preston, flooded the country for miles around, and caused the death by drowning of four people. The property loss will be very heavy. During the storm Alderman Gonkey was killed by the lightning. According to the reports, eight feet of water swept over the town, moving eight or 10 houses 15 or 20 feet from where they originally stood. The Milwaukee road's tracks were washed out for four miles out of town, and the depot twisted around by the water. The lumber yards owned by the C. L. Colman Lumber company are reported to be under from two to three feet of mud and water, and much of the lumber has been carried off by the flood. A confirmed report has just reached here that Michael Wilbright, living west of Forest, lost four children, his barn, house and all contents. Everything was swept down the stream. At Bloomer, Wis., Evelton Garug was killed by lightning.

Anarchists in Spain.

Madrid, May 20.—The police here are extremely reticent regarding the discovery of the anarchist plot. Several of the papers now question whether the arrested men really entertained the intention attributed to them. It is said the authorities on getting an inkling of the purchase of dynamite ordered inquiries made concerning such purchaser, and the existence of the conspiracy is thus thought to have been confirmed. Nevertheless, the Liberal declares that as a result of the preliminary investigation, probably Gabriel Lopez, an employee of an insurance office, and Francisco Suarez, a well known anarchist, will be brought to trial, although the others are still detained.

Both Shot Down.

Washington, May 20.—O'Brien described the capture of Lanag in Panay, when a soldier fired at a native boy on a carabao. He missed, then all the soldiers fired, himself included. This was not done by orders. The shooting brought the people to their doors. One old man was shot in the abdomen. Two other old men came out with a white flag, and both were shot down.

Death of Bishop Taylor.

San Francisco, May 20.—Bishop William Taylor, perhaps one of the greatest missionary bishops of the Methodist church, died at Palo Alto after a long illness, at the age of 81. Fifty years ago he began the career of evangelist, which carried him to all quarters of the globe. He served as bishop of Africa until 1898, when he was retired on account of age.

For Home Missions.

New York, May 20.—The devotional exercises at the opening of the session of the Presbyterian general assembly were conducted by the Rev. Dr. Moffett of Washington, Pa. The day marked the beginning of the central annual celebration of the Presbyterian home missions, which is being held here.

Newspapers Protest.

Salvador City, Salvador, May 20.—Congress has energetically protested against the decree of the arbitration commission in Washington that the government of Salvador pay about \$500,000 to Mr. Burrell and other American citizens for taking away the port of El Triunfo franchise. Salvador newspapers have published a protest against the decision.

Cornerstone Laid.

New York, May 20.—The cornerstone for the new dormitory of the Baron de Hirsch Agricultural school at the Jewish colony at Woodbine, near Cape May, N. J., has been laid. Meyer Sisal, president of the Hirsch fund in America, presided. The colony in the past 12 years has turned a wilderness of underbrush into a thriving town of 1,800 inhabitants.

NO RIPPLE OF DISCORD

Second Week of the Great Strike of Anthracite Coal Diggers.

STRIKE HEADQUARTERS CHOSEN.

President Mitchell Announces That He Will Establish Headquarters For the Strikers at Wilkesbarre. Other Points About Strike.

Hazleton, Pa., May 20.—The second week of the total suspension of hard coal mining as a result of the deadlock between miner and mine owner began without the faintest ripple to disturb the calmness of the situation. A Sabbath stillness prevails everywhere.

Not one of the coal companies in this territory made an attempt to start up a colliery, and not a miner wandered near the big black breakers. The collieries and their surroundings had a desolate appearance. No one was about except the engineers, firemen and pump runners, whose duty it is to keep the mines from water and gas. The stablemen are looking after the mules that have been brought to the surface, after having been in total darkness for two years, and the repair men are doing odd jobs of pieces of work in and about the main buildings.

For the want of something better to do the local miners in all the mining villages and coal patches held meetings. At these gatherings speeches were made by the local leaders for the purpose of keeping up the courage of the men. New members were taken in by some of the locals, and the matter of preparing to relieve the distress in case the strike is prolonged was discussed. The locals as a rule do not furnish money, but provide coal, food and other necessities of life as they are needed. As far as can be learned there have been no applications received by the union for aid.

President Mitchell was at work early on his correspondence. He had little of importance to impart to the group of newspaper correspondents. When asked for any news relating to the calling out of the bituminous mine workers he made an emphatic statement that he would not say a word regarding that phase of the situation. The first announcement of any kind that he will make bearing on that subject will be the formal issuance of the call for the special national convention, which is desired by the three anthracite districts. He will not issue that call until he has received the petition of two additional districts needed to make up the five that are necessary under the laws of the United Mine Workers' organization to call a convention.

JOHN GRANT, who was removed from the office of Marshal of the Eastern Texas district, says he was deposed because he refused to pledge Texas to President Roosevelt in 1904. He is for Hanna. If it's going to be a clash between Hanna and Roosevelt, the latter may as well quit the fight now. Hanna holds the purse strings of the combines.

ACCORDING to the editor of the New York Evening Post, independent, the consolidation of the Atlantic steamship lines has dealt a death blow to Senator Hanna's ship subsidy bill. If the Republicans try to pass it, and hand over a gift of \$9,000,000 a year for twenty years to J. Pierpont Morgan, the country is liable to mildly protest by electing a Democratic President.—Cynthia Democrat.

Well, that's one good thing Morgan and his combine have done.

PROTECTING THE RASCALS.

Commenting on the efforts of certain influential Republicans, notably Senator Hanna, to get Major Rathbone out of the trouble consequent upon the postal frauds at Havana, the Courier-Journal says:

The extraordinary efforts to save Rathbone from punishment are not the consequence of anybody's belief in his innocence. Gen. Wood, the Military Governor of Cuba, in whom resides the pardoning power, and who is familiar both with the circumstances of his crimes and the proceedings at his trial, has no doubt as to his guilt. Although he has pardoned Reeves, one of Rathbone's accomplices who turned State's evidence, it has been all along understood that it would be useless to ask him to pardon Rathbone. Under orders from Secretary Root, however, Gen. Wood has been compelled to direct the Supreme Court of Cuba to grant Rathbone a new trial. Thus on the eve of the establishment of the Cuban republic Secretary Root acted upon the orders of the President, and he acted in response to pressure brought to bear upon him by politicians in high places.

This pressure, as we have said, need not be interpreted as proceeding from any conviction of innocence. Rathbone has been useful to certain politicians, and they feel bound to stand by him, not because he is innocent, but because they are sure that he is guilty. It is a reproach to those who recommended him as a man of capacity and integrity that he should serve a long term of imprisonment and pay a heavy fine. If it is impossible to prove him innocent, which they had ample opportunity to do while the prosecution was proving him guilty, it is worth an effort to create a presumption in his favor by getting the proceedings dismissed. So a new trial is ordered on the eve of the change of Government, probably with the hope that he may be included in the general amnesty which will attend the inauguration of the new republic. Then it will be possible to say that he did not seek a pardon, and that he would have been vindicated if the proceedings had been carried through.

A distinguished public man, it is said, when there came a vote on a contested election in Congress, was wont to inquire, "Which is our d—d rascal?" in order that he might make no mistake. The disposition to stand by their own rascals is even more strikingly exemplified now by a number of prominent men, in and out of Congress, and it is not an edifying spectacle.

ONCE TOO OFTEN.

"Shade" Angel, a Government Grafter, Given a Stiff Sentence by Judge Cochran.

At London last Friday Judge Cochran sentenced "Shade" Angel to serve one year and a day in the Atlanta prison and to pay a fine of \$1,000.

Angel is what is known as a Government grafter, according to the United States authorities. They say he has had a habit of getting some friends to have him arrested on a charge of selling liquor without a license, have the Government summon a lot of witnesses against him, and then he would be acquitted because a case could not be made out. The authorities are positive that the witness and mileage fees were divided, and they have heard Angel boast many times that his friends would not convict him. But he went over the road this time, and the Federal authorities are glad that they will not be bothered by him for some time.

His trial came up Friday, and "Shade" told a number of his friends to wait for him after court, as he was going home. But the jury thought differently and convicted him. When brought before Judge Cochran for sentence the latter asked "Shade" if he had ever been tried before.

"Three times before and always acquitted," replied Angel.

"Well, you may take a year and a day in the Atlanta pen and pay a \$1,000 fine," said Judge Cochran.

Angel is now on his way to Atlanta.

CONFEDERATE MEMORIAL DAY.

Services to Be Followed by Presentation of Southern Cross of Honor—Col. Breckinridge, Judge Wall and Rev. Moss Speakers.

Tuesday, June 3rd, is Confederate Memorial Day in Kentucky. On that morning at 10 o'clock the Dr. Basil C. Duke Chapter, U. D. C., will decorate the graves in the Maysville Cemetery.

This ceremony will consist of a song, followed by a prayer by the Rev. Joseph Severance, of Mayslick, and a short address by the Rev. R. E. Moss, of Maysville.

All who are interested in this loving tribute to our dead are invited to bring flowers and join us.

Mrs. T. J. CHENOWETH, President.

At 11:30 o'clock on the morning of June 3rd, in the floral hall at the Maysville fair ground, there will be a presentation of the Southern Cross of Honor to forty-one Confederate veterans by the Dr. Basil C. Duke Chapter, U. D. C.

The exercises will be a prayer by Dr. J. C. Molloy, of Maysville, and appropriate songs, followed by an address by Col. W. C. P. Breckinridge, of Lexington, with a response by Judge G. S. Wall.

Every veteran who has returned his application paper is earnestly urged to be present.

There will be a picnic lunch for the veterans and their families after this service. Mrs. T. J. CHENOWETH, Pres.

FACE WASHES.

Containing Minerals Should be Discarded Before Taking Sulphur Baths. Louisville Woman's Experience.

According to the Courier-Journal, a Louisville matron of not very mature years, had an unhappy adventure at French Lick Springs. It seems that this lady did not know of the chemical action of sulphur on certain metallic substances, or did not realize that the kind of color she applied to the face contained a mineral that would be affected by sulphur. Now this lady's complexion has long been a point of pride with her, and her friends have often remarked that no matter how she was feeling she always retained her high color. That brought about the catastrophe. She went to French Lick to drink the waters and take the sulphur baths. She took only one. When she looked at herself in the mirror after bathing she was horrified to find her face about the color of a slate pencil. She was scared, and the doctor was called in. As gently as he could that gentleman explained that face washes containing minerals should not be used when sulphur baths are taken. The lady kept in her room several days, and then came home, a wiser if a madder woman than when she left.

THE BEE HIVE

In They Come! Out They Go!

The wheel of evolution is here; perpetual motion at last accomplished! In they come—hundreds of cases of goods from all over the country. Out they go—thousands of packages to the many homes in and around Maysville. Goods here to-day are not here to-morrow. New goods arriving daily.

Lawns, Dimities and Swisses, 7½, 10, 15 and 25c. the most popular, but on up to 75c. if you wish them. A fair representative in the center window.

WALKING SKIRTS at last are here. New styles and new colorings—light grey the favorite. All prices, but the two favorites are \$5.95 and \$7.95.

The whole store is full of good news. Come and let us talk to you about it, and at the same time we will show you what we are doing. Remember a day too soon is not a day too late.

AGE OF IMPROVEMENT.

And the Farmer Must Keep Step With the Times If He Would Prove Successful.

This is an age of improvement on the farm, as well as in other kinds of business. The farmer must read and study, and be awake to everything that will advance his interests, in order to keep at the front; and he must be there in order to succeed. It is utterly useless to try to farm as our grandfathers did, if we are to keep up with the procession. It is good economy to purchase new and improved implements if we use judgment in buying. We may as well ride on a spring seat in plowing or harrowing as to wear ourselves out in walking day after day behind the team. On no account should an implement be purchased unless it can be housed when not in actual use.

Hemlock boards and shingles are far cheaper than implements, and it is economy to have toolshed. Judgment is to be used in the breeding and feeding of stock, that the farmer may possess something really valuable and worth showing to his friends, because this is the stock that it pays to keep.

SUCCESSFUL WORK

Done by the Local Y. M. C. A. Past Year. But Still Better Things Hoped For. Meeting of Directors This Evening.

The Board of Directors of the local Young Men's Christian Association will have a special meeting at their rooms this evening at 7:30 o'clock. Plans for the summer's work and other important matters will be considered which have to do with the future of the association. The local association has never done a more successful work, as a whole, in its history than during the past year. In some respects improvements could be effected and the board are hoping to make these as soon as practicable.

Through the educational work, bible classes and men's meetings, an increasing number of young men have been reached. The work among younger boys has been pre-eminently successful. Efforts are now being made to provide for sufficient funds to enable the association to close the year, Sept. 1st, without a deficit. Considerable is at stake when the value of the association to the community is considered. Said Prof. Hays Thomas at the men's meeting last Sunday afternoon:

"I do not know that I am capable of putting the correct estimate on the value of this association, as I would have to take into consideration all the possibilities of the lives that are touched here for time and for eternity. One man alone whose life might be touched here for better, and his widening, broadening, never-ending influence as he touches the lives of others is beyond the power of any due to estimate. I believe the association in its bearing on the lives of the young men and boys of our city has a tendency to uplift them physically, mentally and morally, and I believe that the parents of this city could be made to realize that perhaps the future of their boys depended upon the continued existence of this institution their hearts and pocketbooks would be opened to its support."

If I were to go to any business man in Maysville and ask him what he valued most in a young man whom he might employ he would say good character, honesty, sobriety and capability. This association stands for all this for every boy it touches. The expense of \$1,500 a year in a city of 8,000 inhabitants is little enough to bring about this end. This is the only institution in this city where the young men of the town, whether young or old, rich or poor, can meet on an equal footing and have the advantage of good literature, baths, gymnasium, etc. I believe that if the importance of the work of the association were realized, every business man in Maysville who has not supported it heretofore would be smitten with conscience and say, "I have been derelict in my duty," and write the Secretary immediately enclosing a check for a handsome sum. The lives of the young men have been touched, and they will touch the lives of others, and their influence goes on widening and deepening, and we cannot compute where the influence will end that goes out from this institution.

He saw service in the Philippines and China, and was one of the guards at the Milburn home in Buffalo after President McKinley was shot.

At a meeting held at the Covington Trust Company's office Saturday a Detroit syndicate took an option on an immense tract of land in Breathitt and Perry Counties, Kentucky. The land embraces about 100,000 acres, and the syndicate took an option on it for two months, and at the end of that time it is expected to purchase it for \$100,000. The land is owned by the Breathitt Coal, Iron and Coke Company.

The administrators of the late Newton Cooper will offer the four-story brick business house known as "Cooper's Hall" at public auction Thursday, May 29, at 2 p. m. This is a very desirable piece of property, and will attract persons desiring to invest in real estate. All the other real estate left by Mr. Cooper is also for sale, including the St. Charles Hotel, the big six-story Cooper's warehouse, two handsome residences on Front street and some unimproved lots in the Sixth ward. See advertisement for further particulars.

SAFETY INVESTMENT CO.'S TROUBLES.

Claim Made at Covington That Appointment of Receiver Taylor Was Made When Judge Was Not in His Jurisdiction.

[Times-Star]

The contest of parties in Maysville and Lexington to participate in the receivership of the Germania Guaranty, Bonding and Investment Co., of this city, came before Judge Tarvin this morning in the form of a petition to have Messrs. Burgess Taylor and J. W. Morford, of Maysville, and Messrs. Risk and Webb, of Lexington, made parties to the suit in this court and also confirmed as receivers of the Safety Investment Company and Lexington Real Estate and Investment Company, respectively, (two concerns absorbed by the Germania).

They were made parties as prayed, there being no objection, but the question of receivership, so far as it concerns them, was passed over for argument on next Wednesday evening, when it is learned an interesting question of law and practice will be brought up for discussion by the attorney for the Germania, who will contend that the order appointing Mr. Burgess Taylor receiver of the Safety Company is invalid, because Judge Harbeson, who made the order as Circuit Judge of Mason County, did so when outside the jurisdiction of the court and State.

It is understood to be claimed that the order in question was made at Gooch's Island, on the Greenbrier river, in West Virginia, by Judge Harbeson, while he was there with a fishing party, guests of Congressman Gooch.

To put the brake on the wagon going down the hill is a help to the horse, when the wagon is heavily loaded. But what driver would think of applying the brake to a loaded wagon going up hill? If he did, his sensible horse would probably balk. Many a man is in the condition of pulling a load up hill with the brakes set against him. When his stomach is out of order, and the allied organs of digestion and nutrition impaired in their functions, a friction is set up which has to be overcome in addition to the performance of daily duties. A foul stomach makes a foggy brain, and the man with a disordered stomach has often to grope his way through the day's business like the man in a fog. He forgets appointments. Problems seem presented to his mind "wrong end to." This condition is entirely remedied by the use of Dr. Pearce's Golden Medical Discovery. It puts the stomach and digestion and nutrition system into a condition of perfect health, and gives a clear brain, a steady hand and a light step for the day's duties. When constipation clogs the channels of the body, Dr. Pearce's Pleasant Pellets will work an effectual cure of that disastrous disease.
